

ID	Original Theme	Title	Original Session Type
1191	Large-scale implementation	'How Many?!': Reducing staff stress levels with an innovative approach to Life Science sessions.	Poster
1246	Large-scale implementation	"Move on up" – The Why? Who? & What next? of e-learning benchmarking	Symposium
1095	Learning technology for the social network generation	7 days in the life of a 'net generation' student – e.learning opportunities and social networking beyond the classroom	Short paper
1165	Learning and internationalism	A benchmarking-aware Learning and Teaching Enhancement Strategy for the Arab Open University	Short paper
1318	Learning technology for the social network generation	A demonstration of Wikiversity: an educational wiki	Demonstration
1324	Learning technology for the social network generation	A Document Oriented Model for the Design of Games within a Higher Education Setting	Short paper
1239	Learning and internationalism	A European Virtual Campus: from Prototype to Implementation	Short paper
1117	Learning technology for the social network generation	A Moveable Feast? The accessibility opportunities and barriers of m-Learning	Research paper
1291	Large-scale implementation	A new VLE? A review of staff and students e-learning requirements at UCL	Short paper
1335	Large-scale implementation	A One-Stop-Language-Shop for 14 languages	Demonstration
1250	Learning technology for the social network generation	A portfolio-based approach to developing wiki and blog capabilities – from individuals to institution, one 'size' does not fit all	Short paper
1252	Large-scale implementation	A 'practitioner friendly' user interface for authoring IMS Learning Design	Short paper
1321	Designing learning spaces	A Preliminary Investigation into the Motivational Aspects of Accessibility Simulations	Short paper
1057	Large-scale implementation	A Reusable Model for Usability Testing of Online Teaching and Learning Applications.	Short paper
1142	Learning technology for the social network generation	A study on how learners' responses to online presentation are related to their Multiple Intelligences.	Research paper
1311	Learning technology for the social network generation	A tale of two wikis: a comparative study of collaborative online spaces	Short paper
1329	Designing learning spaces	A taxonomy for immersion as a concept to guide the design of serious games	Short paper
1320	Learning technology for the social network generation	A Tool to Support the Design of Personal Development Activities	Short paper
1072	Large-scale implementation	Accommodating Multiple Learning Styles and Abilities in a Large-Scale Online Learning Resource	Research paper
1188	Learning technology for the social network generation	Advancing Knowledge: The Role of Digital Learning Resource Marketplaces	Short paper
1285	Learning technology for the social network generation	An analysis of cognitive, social and teaching presence in a blog-based virtual learning community	Short paper
1182	Learning and internationalism	An Approach and Tool for Adapting Learning Objects based on Underlying Learning Designs	Short paper

1070	Designing learning spaces	An exploration of tablet PC use in undergraduate business education: initial perceptions and experiences of students and academic staff.	Short paper
1053	Learning technology for the social network generation	An Innovative e-Learning Research Approach	Short paper
1203	Large-scale implementation	An testing and user evaluation of a video system for online authentication of assessment for remote learners	Short paper
1310	Large-scale implementation	Analysing achievements in a large-scale e-learning project against theories of organizational change	Short paper
1177	Large-scale implementation	Applying e-Learning within Staff Development: Case Studies of innovative practice	Short paper
1300	Large-scale implementation	Are we ready for Learners in Control?	Symposium
1124	Learning technology for the social network generation	Assessing the impact and potential of podcasts as pre-lectures	Research paper
1140	Learning technology for the social network generation	Assessing the Usefulness of Mini-games As Educational Resources	Research paper
1257	Large-scale implementation	Authoring IMS Learning Design	Poster
1363	Large-scale implementation	Becta's research programme: learning technology in and out of school (joint session with ALT research cttee)	Symposium
1100	Large-scale implementation	Benchmarking e-learning in UK higher education, or "though this be madness, yet there is method in't"	Symposium
1364	Large-scale implementation	Benchmarking the design and approach of learning across HE disciplines	Short paper
1129	Learning technology for the social network generation	Beyond control what gadgets will we use Wi Fi to wii .future gadgets. Do gadgets matter or is it about device agnosticism.	Workshop
1323	Designing learning spaces	Beyond Control: Designing Space for Effective Learning and Teaching of Digital Media in Higher Education	Short paper
1325	Learning technology for the social network generation	Beyond IMS: The Pedagogical Attributes of Learning Objects	Short paper
1336	Designing learning spaces	Beyond school control: Year 6 students appropriate mobile technologies as curriculum tools	Short paper
1351	Learning technology for the social network generation	Blackboard MMS: two way video sharing in a VLE	Short paper
1237	Learning and internationalism	Blended learning and media richness theory: student perception of different media platforms within an International MBA programme.	Short paper
1126	Learning technology for the social network generation	'Blog off these web 2.00 tools will never catch on' why you should all take notice the tools the current generation of learners are using.	Workshop
1204	Designing learning spaces	Blogging your way to successful learning spaces	Short paper
1279	Learning technology for the social network generation	Blogs and e-mails: an effective means to understanding the student learning experience?	Short paper
1290	Learning technology for the social network generation	Blogs, reflective practice and autonomous learning in Graphic Design Communication.	Short paper

1158	Learning technology for the social network generation	Bridging 3D and Web-Based Virtual Learning Environments	Research paper
1269	Learning technology for the social network generation	Browser tools in support of formal learning	Workshop
1358	Learning technology for the social network generation	Building Bridges: how e-learning can encourage social constructivist approaches to teaching	Short paper
1222	Large-scale implementation	Calculations for Nursing Practice	Short paper
1271	Learning technology for the social network generation	Can mobile learning content also be collaborative? - a demonstration of tools and techniques from across the UK	Demonstration
1331	Large-scale implementation	Capturing student experience and expectations of e-learning as a potential lever for cultural change within an institution	Short paper
1214	Learning technology for the social network generation	Cascading NewsFilm Online across the disciplines	Workshop
1215	Learning technology for the social network generation	Cascading NewsFilm Online across the disciplines	Poster
1305	Learning technology for the social network generation	Can we use mobile devices for learning?	Workshop
1348	Large-scale implementation	COLEG's instructional design initiative: developing online assessments within the wider learning context	Demonstration
1226	Learning technology for the social network generation	Collaboration on a successful technology-rich IBL project: The role of the educational developer	Short paper
1130	Learning and internationalism	Collaborative Inquiry Across Institutional and National Boundaries: Flashlight Online 2.0	Workshop
1125	Learning and internationalism	Collaborative knowledge building through on-line reflective journals: a Russian case study	Research paper
1159	Learning technology for the social network generation	Collaborative Learning in a Wiki Environment: Experiences from a Software Engineering Course	Research paper
1088	Learning technology for the social network generation	Collaborative Learning: How an online competition brought learners together	Short paper
1127	Learning technology for the social network generation	Collaborative Working: Wiki and the Creation of a Sense of Community	Research paper
1263	Designing learning spaces	Community Dimensions of Learning Object Repositories	Short paper
1313	Large-scale implementation	Comparing technologies for electronic voting systems	Short paper
1327	Large-scale implementation	Computer Assisted Formative Assessment: Helping students to discover what they don't know and then take control of their own learning.	Short paper
1094	Designing learning spaces	Computer supported collaborative learning in the recording studio	Short paper
1051	Learning technology for the social network generation	Conceptualising students' views of learning: a study of blog usage	Research paper
1218	Learning and internationalism	Connecting Indigenous learners globally and locally	Short paper
1297	Learning technology for the social network generation	Connecting Learning Object Repositories – how can federations of repositories combine with other technologies?	Short paper

1304	Learning technology for the social network generation	Context, Collaboration and Community: The Role of GPS-enabled PDAs	Short paper
1110	Learning technology for the social network generation	Could we, would we, should we? Using learning technologies to achieve affective outcomes in higher education	Workshop
1162	Large-scale implementation	Creating Learning Networks in the National Professional Qualification for Headship	Short paper
1341	Learning and internationalism	Credit where credit's due: a pedagogical approach to APEL and its evaluation	Short paper
1243	Learning technology for the social network generation	Criterion: Group analysis of complex concepts	Short paper
1151	Learning technology for the social network generation	Cultural capital and community development in the pursuit of dragon slaying. (Massively Multiplayer guild culture as a model for elearning)	Short paper
1152	Learning technology for the social network generation	Cultural capital and community development in the pursuit of dragon slaying. (Massively Multiplayer guild culture as a model for sociable elearning)	Poster
1333	Learning and internationalism	Cultural influences on learning object design and development	Short paper
1171	Learning and internationalism	Culturally situated Japanese Language Online Tutorials	Poster
1274	Learning technology for the social network generation	Design for learning for the social network generation: themes from a LAMS evaluation project	Short paper
1106	Large-scale implementation	Design for re-usable learning: The ResORT resource	Short paper
1168	Designing learning spaces	Designing Mobile Learning Spaces for Higher Education	Short paper
1354	Large-scale implementation	Designing new educational models that adapt to learners	Short paper
1194	Large-scale implementation	Designing with technology to enhance learner responsibility: shifting control through assessment practices	Workshop
1236	Learning technology for the social network generation	Developing a Community of Practice Using Camels.	Short paper
1090	Large-scale implementation	Developing a contextualised approach to accessible e-learning: A framework for planning and developing institutional responses to accessibility	Workshop
1089	Large-scale implementation	Developing a contextualised approach to accessible e-learning: Regaining control of the accessibility agenda within an institutional setting	Short paper
1212	Learning technology for the social network generation	Developing an online work placement experience	Short paper
1240	Designing learning spaces	Developing and Evaluating an On-line PhD	Short paper
1190	Learning technology for the social network generation	Developing borderless learning spaces: interactive Teaching and Learning Observatories	Short paper
1253	Learning technology for the social network generation	Devices, demands, and desires: tracing technology use in the daily life of Cambridge students	Short paper

1275	Learning technology for the social network generation	Digital inquiry and social networking	Short paper
1091	Learning technology for the social network generation	Digital Storytelling	Workshop
1189	Learning technology for the social network generation	Directed and Undirected Computer Assisted Language Learning, Collaboration, and Lifelong Learning	Poster
1085	Learning technology for the social network generation	distance learning in developing countries	Short paper
1249	Large-scale implementation	Divergent Discourses in ePortfolio Theories, Policies and Practices	Symposium
1120	Designing learning spaces	Document it - a simple referencing tool	Demonstration
1282	Learning technology for the social network generation	Does a Collaborative Approach to Designing for Learning Ensure Effective Practice?	Symposium
1059	Designing learning spaces	Does a Handheld Gaming Device Make An Effective Assistive Technology Tool?	Short paper
1107	Learning technology for the social network generation	Does it still sound interesting?	Short paper
1217	Learning technology for the social network generation	Educational television beyond the TV set	Short paper
1221	Learning technology for the social network generation	E-learning and threshold concepts	Short paper
1133	Learning technology for the social network generation	eLearning for affective outcomes: what do we know?	Research paper
1208	Designing learning spaces	E-learning for sharing: Development evaluation, assessment and dissemination of an e-learning inter-professional module	Short paper
1149	Large-scale implementation	e-learning in clinical skills: survey of undergraduate medical students experiences and attitudes	Short paper
1256	Large-scale implementation	E-Learning in Schools Survey 2006	Short paper
1093	Learning technology for the social network generation	e-learning Interventions: The Impact Of The Educational Technologist And Their Role In Curriculum Development	Research paper
1266	Learning technology for the social network generation	Encouraging diversity in the use of the wiki tool: a staff development model.	Poster
1315	Learning technology for the social network generation	Engaging with mobile technologies for learning and assessment purposes	Workshop
1136	Designing learning spaces	Enhancing the learning experience of online learners through faculty interaction – fantasy or fact? A pilot study	Research paper
1287	Designing learning spaces	Environments to promote engagement, interaction and enquiry	Poster
1071	Large-scale implementation	ePioneering: A Mentoring Approach to Technology Adoption	Short paper
1359	Learning technology for the social network generation	ePortfolios for academic development: engagement vs. formal assessment	Short paper
1295	Learning and internationalism	European Unified Framework for Accessible Lifelong Learning	Short paper
1076	Designing learning spaces	Evaluating ICT in Education Using the Concept of Mediation	Research paper
1302	Learning technology for the social network generation	Evaluating online peer review with NVivo	Short paper

1299	Designing learning spaces	Evolution of Learning Resources – How the Process can be Accelerated?	Demonstration
1334	Learning technology for the social network generation	Evolving learning identity in multi-user virtual environments	Short paper
1238	Large-scale implementation	Expand the boundaries: Digital Repository Solutions	Demonstration
1148	Learning technology for the social network generation	Exploring students' understanding of how blogs and blogging can support distance learning in Higher Education	Research paper
1303	Designing learning spaces	Exploring the use of physical, mobile learning for school children	Short paper
1178	Designing learning spaces	Extending the scope of learning objects with XML	Short paper
1131	Large-scale implementation	Factors Affecting the Adoption of Faculty-Developed Academic Software: A Study of Five iCampus Projects	Short paper
1135	Learning technology for the social network generation	Finding the balance: learning technology for multiple generations	Symposium
1209	Large-scale implementation	From Control to Collaboration: Creating e-learning across a national consortium	Short paper
1156	Designing learning spaces	From copying to learning? how students use a databank of marked assignments to improve the quality of their assignments	Short paper
1241	Large-scale implementation	From MIT90s to MIT 'noughties': opportunities for transformation	Symposium
1339	Learning technology for the social network generation	'Go forth and Scholar'	Short paper
1210	Large-scale implementation	Going beyond management by control to management by engagement - are FE staff ready to engage	Short paper
1294	Learning technology for the social network generation	Guided Confusion: subverting technology to capture complexity	Short paper
1255	Learning technology for the social network generation	'Here's Looking at You': A Comparative Study of Teacher and Learner Perspectives using the Hybrid Learning Model.	Short paper
1319	Learning and internationalism	How can Learning Technology make a world of difference?	Short paper
1272	Large-scale implementation	How Intel is helping to transform UK Education.	Demonstration
1157	Learning technology for the social network generation	How to support part-time tutors professional development needs by using Wiki and Blogs	Poster
1079	Designing learning spaces	How you can start using participative Web 2.0 social technologies today for powerful and sustainable assessment for real world learning & performance	Workshop
1184	Learning and internationalism	Identifying cultural differences in the barriers to on-line learning: validity and reliability studies of a tool tested in Taiwan and the UK	Poster
1065	Learning and internationalism	Improving Online Literacy Skills and Strategies by Adding Text and Readability Analysis to Any Website	Workshop
1223	Learning technology for the social network generation	In their own words – Exploring the relationship between learners and technology	Workshop

1347	Designing learning spaces	Informal, Social, Virtual? Understanding Learning Spaces	Short paper
1045	Learning and internationalism	Informationisation-ICT in the Chinese Education System	Short paper
1231	Large-scale implementation	INFORMS: the new generation	Demonstration
1161	Learning technology for the social network generation	Innovation and Control in Online Learning: How do we Understand Web 2.0?	Research paper
1314	Large-scale implementation	Innovative Practice in Education: Exploring the Potential of Human and Automatic Speech Recognition in the University Classroom	Short paper
1193	Learning technology for the social network generation	Instant messaging: students' use and demands for education	Short paper
1195	Learning technology for the social network generation	Institutions offering digital displays and their associated education theories: an investigation into learning and interpretation in gallery	Short paper
1060	Learning technology for the social network generation	Integrating folksonomies and taxonomies when teaching with a social bookmarking application integrated within an online course environment	Workshop
1061	Learning technology for the social network generation	Integrating folksonomies and taxonomies when teaching with a social bookmarking application integrated within an online course environment.	Demonstration
1062	Learning technology for the social network generation	Integrating folksonomies and taxonomies when teaching with a social bookmarking application integrated within an online course environment.	Poster
1086	Large-scale implementation	Interactive e-Assessments	Demonstration
1349	Learning technology for the social network generation	Interactive Television production as social networking application for education?	Short paper
1206	Large-scale implementation	Interactivity in language classes - face-to-face and online	Short paper
1099	Learning technology for the social network generation	Interdisciplinary and authentic: a student-staff simulation for the development of educational games	Short paper
1213	Large-scale implementation	International perspectives on academic staff development for eLearning; the UK and New Zealand compared	Short paper
1166	Learning technology for the social network generation	International Social Learning Networks	Symposium
1332	Learning technology for the social network generation	Invasion of the Techno Teachers: the transformation of academic identity within the Digital University	Short paper
1077	Learning technology for the social network generation	Investigating university students' prior experiences of technology and their expectations of using technology in their studies	Research paper
1235	Learning and internationalism	Issues in teaching and learning Photography: The teachers and students perspective in Bahrain and UK	Short paper
1111	Large-scale implementation	Jaws Dropping: ever mending; never ending! A DIY approach to accessibility	Demonstration

1306	Large-scale implementation	Just where are institutions going with e-learning? or the smoothest paths lead nowhere..	Symposium
1145	Learning technology for the social network generation	Knowledge creation processes of students as producers of audio learning objects	Research paper
1108	Large-scale implementation	Large-Scale Messaging - Techniques & Technologies	Workshop
1073	Large-scale implementation	Leading by letting go - the story of - the story of eQuIP	Short paper
1289	Learning technology for the social network generation	Learners in Control: the TESEP Project	Short paper
1069	Learning technology for the social network generation	Learning and automatically assessing graph-based diagrams	Research paper
1187	Learning technology for the social network generation	Learning and teaching using integrated user-owned and institutionally-owned systems	Short paper
1229	Learning and internationalism	Learning in networks	Short paper
1067	Learning and internationalism	Learning Science-Technology across Cultures	Short paper
1180	Large-scale implementation	Learning technology - the Information & Library Service perspective	Demonstration
1113	Learning technology for the social network generation	Lecture recordings: extending access for students with disabilities	Research paper
1063	Designing learning spaces	Lecturers' perceptions of Videoconferencing as a tool for Distance Learning in Higher Education	Research paper
1281	Large-scale implementation	Lessons learnt from the e-learning benchmarking exercise	Short paper
1230	Learning technology for the social network generation	Losing control, or how I learned to love user generated content	Short paper
1337	Learning technology for the social network generation	Making seen the unseen: exteriorising pedagogy and subverting technology in learning object development for the historical disciplines	Research paper
1192	Learning technology for the social network generation	Making wikis work: how do we create the conditions for effective collaborative learning?	Short paper
1197	Large-scale implementation	Mapping expectations of online assignment submission and online feedback	Poster
1123	Learning technology for the social network generation	Measures of Learning Style in the Evaluation of Blogs as Reflective Learning Tools	Short paper
1056	Learning technology for the social network generation	Meeting the needs of our community and beyond - how to gain more computer scientists through school/college and university partnerships	Demonstration
1260	Large-scale implementation	MINTED: Moodle Integration with Enterprise Data	Short paper
1322	Learning technology for the social network generation	MLearning in Action – a Hands-on Approach	Workshop
1096	Learning technology for the social network generation	Mobile Knowledge, Mobile Technology, Mobile Society, Mobile Learning	Short paper
1309	Learning technology for the social network generation	Mobile Learning a Moving Target	Short paper
1265	Designing learning spaces	Motivating Learners: Mobile Learning Objects and Reusable Learning Objects for the X-Box generation	Short paper

1352	Learning and internationalism	MS-Office Templates for the Digital Audio Lab	Demonstration
1355	Learning technology for the social network generation	New Generation Mobile Learning Content Management Solutions for Media Based Learning Personalization. Solutions and Case Studies	Demonstration
1312	Designing learning spaces	Online Discussions, The Student Experience: A Study of a Blended Learning Non-Medical Prescribing Course	Short paper
1169	Designing learning spaces	Online silence: a space for learning or antisocial?	Short paper
1074	Learning technology for the social network generation	Online student networking around physics problems	Short paper
1288	Learning technology for the social network generation	Online testing of Higher Order Skills	Short paper
1234	Large-scale implementation	Online toolkits for learning design. Should we bother?	Symposium
1105	Large-scale implementation	Online tutor training: International developments	Workshop
1280	Learning technology for the social network generation	Open Educational Resources: Exploring the problem space	Workshop
1049	Designing learning spaces	Orchestration with the Interactive Whiteboard: provisionality and permanence	Short paper
1141	Designing learning spaces	Outcome Based Learning: A blend of technology and constructivism in student learning.	Short paper
1042	Learning technology for the social network generation	Overview and Demonstration of Brand New Teaching and Learning Tools	Demonstration
1084	Learning and internationalism	Parameters for successful management of cross-cultural virtual teams	Research paper
1058	Large-scale implementation	Perceptions of Academics and Students Using University Of East London Virtual Learning Environment 'UEL Plus' : One Year Experience	Short paper
1068	Designing learning spaces	Personalisation and Innovation in Education	Short paper
1109	Designing learning spaces	Personalizing the diagnosis of learner knowledge in a multimedia testing tool based on e-learning standards	Research paper
1114	Learning technology for the social network generation	Phoebe: A Wiki-based Pedagogic Planner to Promote Innovative Practice in Design for Learning	Demonstration
1115	Learning technology for the social network generation	Phoebe: Web 2.0 Technology to Support Innovation and Collaboration Among Teachers	Poster
1261	Learning technology for the social network generation	Podcasting and Assessment for Learning	Short paper
1160	Learning technology for the social network generation	Podcasting and Learning: Engaging Students	Research paper
1170	Learning technology for the social network generation	Podcasting as a social network tool is it a student reality? Findings from a cross institutional survey.	Short paper
1104	Learning technology for the social network generation	Podcasting at RMIT University: evaluating a faculty based trial	Research paper
1138	Learning technology for the social network generation	Podcasting Exercise Physiology - enhancing the student experience	Short paper
1139	Learning technology for the social network generation	Podcasting Exercise Physiology - enhancing the student experience	Poster

1268	Learning technology for the social network generation	Podcasting models for learning in multiple locations	Workshop
1150	Learning technology for the social network generation	Postgraduate blogs: beyond the ordinary research journal	Research paper
1228	Learning technology for the social network generation	projectBluetooth - Delivering Large-Scale Content and Support to the Mobile Generation	Short paper
1183	Designing learning spaces	Promoting independent skills acquisition in practical Allied Health Education	Short paper
1132	Designing learning spaces	Proposed online adaptation of an existing distance learning course for Vietnamese primary school teachers	Short paper
1202	Large-scale implementation	Putting our users first: 'Web 2.0' Initiative at the University of Edinburgh	Short paper
1186	Large-scale implementation	Really SIMPLE stuff: Simulated Professional Learning	Short paper
1064	Large-scale implementation	Recording lectures and the impact on student attendance	Research paper
1350	Learning and internationalism	Recording The Student Learning That Takes Place During Clinical Placements	Short paper
1181	Learning technology for the social network generation	Reflecting Through Digital Storytelling	Poster
1254	Learning technology for the social network generation	Reflections on a Community of Practice in e-Learning: the JISC eLIDA CAMEL Project	Short paper
1200	Designing learning spaces	Relinquishing control: Designing technology-enhanced learning spaces to support student ownership	Workshop
1176	Large-scale implementation	Reusable Learning Objects: Enabling Contextual Adaptation	Demonstration
1227	Learning technology for the social network generation	Runaway Objects: Preserving our Digital Belongings	Workshop
1270	Large-scale implementation	Running Large Scale systems	Workshop
1328	Designing learning spaces	SceDer and COML : Toolsets to Facilitate Collaborative Learning for One-to-One Technology Classroom	Short paper
1198	Designing learning spaces	Scripware: A web-based package for teaching dispensing	Demonstration
1199	Designing learning spaces	Scripware: A web-based package for teaching dispensing	Poster
1146	Learning technology for the social network generation	Searching Questions, Informal Modelling, and Massively Multiple Choice	Research paper
1292	Learning technology for the social network generation	Seeing is understanding: using low-cost videoconferencing for professional learning	Poster
1242	Large-scale implementation	Service Oriented Approaches in education: can we steer the paradigm shift?	Short paper
1286	Large-scale implementation	Six Steps to Effective Evaluation	Poster
1101	Large-scale implementation	Six Steps to Effective Evaluation – a GEM of an idea	Demonstration
1219	Designing learning spaces	Social Computing and the Sustainable Support of Learning Communities	Short paper
1330	Learning technology for the social network generation	Social conferencing: Moving learning beyond lectures and learning management systems	Short paper
1357	Learning technology for the social network generation	Social learning for post-graduates	Short paper

1361	Learning technology for the social network generation	Social Networking and Repositories: Engaging the user in the development of the Carrick Exchange	Short paper
1164	Large-scale implementation	Social Networks, E-learning, and Scalable Middleware	Research paper
1128	Learning technology for the social network generation	Social Software to Support Collaborative Processes of Undergraduate Learning: Early Observations and Emerging Research Requirements	Research paper
1196	Large-scale implementation	Starting academics out on the right foot with e-learning: e-learning starter packs	Short paper
1173	Learning technology for the social network generation	Student and Practitioner satisfaction with the implementation of e-portfolios into Higher Education.	Short paper
1360	Large-scale implementation	Student and Staff Perceptions of Web-based Lecture Recording Technologies	Short paper
1102	Learning technology for the social network generation	Student creation of serious games and simulations using the BehaviourComposer	Demonstration
1103	Learning technology for the social network generation	Student creation of serious games and simulations using the the BehaviourComposer	Poster
1201	Learning technology for the social network generation	Student engagement, a driver for staff engagement	Short paper
1346	Learning technology for the social network generation	Student Researchers Investigate Possibilities for learning Using HHCs In and Out of School	Short paper
1220	Learning technology for the social network generation	Students aren't prepared for web 2.0 learning, are they?	Short paper
1326	Learning technology for the social network generation	Students in control: social networks of learners in e-learning development	Short paper
1083	Designing learning spaces	Students learning with learning technologies: what learning are we talking about?	Short paper
1081	Designing learning spaces	Study on Perception of Noise Distraction in Office-Hong Kong	Research paper
1153	Large-scale implementation	Support for Widening Use of E-learning using a toolkit Approach: A Case Study from the University of Nottingham	Demonstration
1283	Learning technology for the social network generation	Supporting the N Gen learner by integrating e-resources within a University VLE	Short paper
1175	Designing learning spaces	Sustaining mobile practice in the classroom	Short paper
1293	Large-scale implementation	Symposium: Strategic implementation of ePortfolio for personalised learning; technologies and stakeholders.	Symposium
1244	Learning technology for the social network generation	Tales from the bleeding edge: dangerous developments at RLO-CETL	Demonstration
1245	Learning technology for the social network generation	Tales from the bleeding edge: dangerous developments at RLO-CETL	Poster
1362	Learning technology for the social network generation	Teaching the mobile generation: Coursecasting to support learning	Short paper

1264	Learning technology for the social network generation	Technology Bundles - gathering staff and student experiences of using mobile technologies in learning, teaching and assessment	Short paper
1048	Learning and internationalism	Technology-enhanced learning in developing nations: a literature review	Short paper
1216	Designing learning spaces	Tensions between personal space and social space in mobile learning	Symposium
1137	Designing learning spaces	The 'Automatic': A Technologically Enhanced Learning Environment.	Short paper
1163	Learning technology for the social network generation	The Desires of Digital Students	Research paper
1205	Designing learning spaces	The development of an intelligent online system for providing appropriate multimedia feedback to learners	Short paper
1343	Large-scale implementation	The eCPD Project: Integrating Innovative Use of e-Portfolios into the Continuing Professional Development of Staff	Short paper
1278	Designing learning spaces	The future of IMS Learning Design: does it have one, and what will it be like?	Symposium
1258	Learning technology for the social network generation	The integration of a wiki into assessment activities in order to facilitate collaboration, peer support and formative feedback	Short paper
1075	Learning technology for the social network generation	The LearningOnline Network with CAPA	Demonstration
1247	Learning technology for the social network generation	The role of technology in psychology learning and teaching	Poster
1276	Designing learning spaces	The TENCompetence Personal Competence Manager	Poster
1277	Designing learning spaces	The TENCompetence Personal Competence Manager	Demonstration
1308	Learning and internationalism	The Use of Audio Haptics in Distance Learning	Workshop
1118	Learning technology for the social network generation	The use of ICT in teaching and learning: The pervasive solution	Research paper
1154	Designing learning spaces	The use of interactive on-line quizzes in Maths	Short paper
1232	Designing learning spaces	The use of practitioners concepts of inclusivity to inform the planning of learning activities	Short paper
1174	Designing learning spaces	The use of technologically advanced assessment tools in distance education.	Short paper
1301	Learning technology for the social network generation	The Vanguard Courses at the College of Science and Engineering at the University of Edinburgh – a model for promoting Responsible Learning?	Short paper
1185	Designing learning spaces	The Visual Learning Lab: Evaluating visual learning practices in Higher Education	Symposium
1078	Designing learning spaces	The Wide Wild World as curriculum: how social technologies enable socially embedded learning, assessment and structural change in higher education	Short paper

1344	Large-scale implementation	The XCRI CAP Projects: Enhancing The Learner Experience by Developing Standardised Course Advertising Profiles	Short paper
1262	Designing learning spaces	Transformational Engagement	Poster
1112	Designing learning spaces	Transformative learning through the use of blended learning and peer learning in teacher-education	Short paper
1259	Learning technology for the social network generation	TT Centre on the loose!	Demonstration
1273	Large-scale implementation	Undertaking the large-scale introduction of an electronic voting system across a university	Short paper
1050	Designing learning spaces	User interfaces and lifelong e-learning: a cyclical and contextual approach	Short paper
1317	Learning technology for the social network generation	Using a diagnostic tree to organise a fully contingent presentation	Short paper
1092	Learning technology for the social network generation	Using Digital Repositories to Store E-Learning Material for Mobile Devices.	Short paper
1179	Learning technology for the social network generation	Using Informal Podcasts to Enhance Students' Collaborative Learning	Short paper
1122	Learning technology for the social network generation	Using Skype: Learning with Voice Over Internet.	Poster
1248	Learning technology for the social network generation	Using social software to enhance the library experience of distance learners	Short paper
1296	Learning technology for the social network generation	Using the ePortfolio in Initial Teacher Training: reduction of the 'paper trail' for students, lecturers and mentors.	Poster
1119	Learning technology for the social network generation	Video tagging and folksonomies: social software principles in educational development	Short paper
1121	Learning technology for the social network generation	Video::Interactions - socially constructed analyses of video in an online environment.	Poster
1047	Large-scale implementation	Virtual Learning Environments: The students' perspective	Short paper
1052	Designing learning spaces	VLE to MLE: Expanding the scope of a campus-wide system	Short paper
1098	Learning technology for the social network generation	Web 2.0 - extending the learning environment	Short paper
1066	Learning technology for the social network generation	Web 2.0 and informal learning	Research paper
1172	Learning technology for the social network generation	Web 2.0 and Science Education: Beyond Entertainment	Short paper
1080	Learning and internationalism	Web 2.0 and the postcolonial imagination in networked global universities: using social technologies to create egalitarian transcultural contact	Short paper
1267	Learning technology for the social network generation	Web 2.0 applications as student-centred tools for portfolio construction: Evaluating the fit between the technology and the stakeholders.	Workshop
1298	Learning technology for the social network generation	Web 2.0 Slam – 'Performing' Innovative Practice	Workshop
1307	Designing learning spaces	Weblogging and Teacher Professional Development: Getting the Most Out of Online Social Networking Technologies	Short paper

1211	Designing learning spaces	Welcome Back! - improving the look and feel of a learning community	Short paper
1251	Learning technology for the social network generation	What gives life to our community? An appreciative inquiry based approach for studying the emergence of a community in Web 2.0 learning applications	Short paper
1097	Learning and internationalism	What is this creature called educational technology? A review	Research paper
1345	Learning technology for the social network generation	What's so social about the social web?	Symposium
1046	Learning technology for the social network generation	Where is the 'm' in Skills for Life?	Short paper
1207	Learning technology for the social network generation	Which side of the wall are you on?	Short paper
1233	Learning technology for the social network generation	Whose e-learning is it anyway? A case study exploring the boundaries between social networks and VLE courses.	Short paper
1167	Learning technology for the social network generation	Whose world is it? OSP/Sakai, Moodle and Web2.0 in further and community education	Short paper
1356	Large-scale implementation	'Why you should deploy eLearning and Mobile Learning Content Management Solutions in your Organisation'	Workshop
1116	Learning technology for the social network generation	Widening access to educational resources: The development of tools to support deaf and hearing students.	Research paper
1147	Learning technology for the social network generation	Wiki Productivity and Discussion Forum Activity in a Postgraduate Online Distance Learning Course	Research paper
1353	Learning technology for the social network generation	Wiki-based Peer Tutoring	Short paper
1155	Learning technology for the social network generation	Wiki-tivities	Workshop
1316	Learning technology for the social network generation	Wikiversity - a complex space for collaborative learning	Poster
