

Educational Technology and Related Educational Conferences for January – August 2009

Prepared by Clayton R. Wright, crwr77@gmail.com, December 24, 2008

This list focuses primarily on the use of technology in online and face-to-face educational settings as well as on teaching and learning and related support services. Only listings from January to August 2009 are complete as dates, locations, or URLs are not available for a number of events after August 2009. This list of events is published in a *Word* format to enable people with limited or high-cost internet access to find a conference that may suit their interests or obtain conference proceedings. Consider using the "Find" tool under *Word's* "Edit" tab or similar tab in *OpenOffice* to locate the name of a particular conference, association, city, or country. Then, "cut and paste" a list of suitable events for yourself and your colleagues.

Please note that **events, dates, titles, and locations may change; thus, check the specific conference website**. Note also that some events will be cancelled at a later date. All the information below was obtained from Internet sources and announcements in educational journals. All Internet addresses were verified at the time of publication. No liability is assumed for any errors that may have been introduced inadvertently during the assembly of this **selected** conference list. If possible, **please do not remove the contact information** when you re-distribute the list as that is how I receive updates and corrections. Thanks for your cooperation. crw
